

Jason Ian still has the Reverend backdrop from this tour in storage.

No bootleg recordings have surfaced from this tour.

Brian had to do most the writing on this one alone, Dave was gone most the time doing his own thing.

Several demos were done, the tapes are lost or destroyed. The Beatles "Revolution", Thin Lizzy - Thunder and Lightning, and the record company tried to force them to cover Isaac Hayes - Shaft. Reverend tried and could not come up with a metal version.

David did tell me the inspiration for Far away, it was for someone he knew. "It's dedicated for **** who lay up on the hill. Once I find the name I will update this section.

"I wrote first verse and chorus , he finished the last verse in the studio" - Brian Korban
