

David Wayne joined Intrinisc late 87 and was with the band approximately 6 months.

They did a showcase for Electra Records in 88, this was played on David Wayne tribute May 2005 on KNAC radio.

In the photo's section there are many flyers from shows with David, so we know they did perform live. There are many other demo's as well, none of very good quality.

"We did gods of wrath & Highway star because WE wanted to, not because Dave wanted us to" - Mike Mellinger.
